[redacted] 25X1

DIARY NOTES

Executive Director-Comptroller 24 August 1965

1. Dick Helms has requested that he be furnished a list of those seriously ill or wounded employees who are hospitalized so he can plan systematic visits. He also expressed the hope that a controlled stream of visitors would make similar calls on these personnel. I have passed this along to Bob Bannerman and suggested that Dr. Tietjen do this sytematically in coordination with the appropriate Agency component.

2. I presented a list of candidates for the liaison officer to the Secretary of Defense and it has been tentatively decided that 25X1 [redacted] will be recommended to the Director for this job.

****

25X1 3. [redacted] and Jack Blake were in to talk with me about the DD/S&T problems they foresee as probable during the absence of both Helms and 25X1 [redacted] leaves tomorrow for three weeks and Helms on Friday for two.) The gist of it is that [redacted] 25X1 is now charged with all overhead reconnaissance insofar as the Agency is concerned and Wheelon is to have no responsibility whatsoever in this area. 25X1 [redacted] and Blake are in sharp disagreement with Bud as to the assignment of certain personalities, particularly 25X1 [redacted], [redacted] will talk with Bud 25X1 tomorrow before he leaves but he anticipates that Bud will blow his stack and the whole problem will end up in my lap. I told 25X1 [redacted] that I did not know the personalities involved well enough to have very good judgment as to who would be better in the positions involved. However, if he is to be responsible for the reconnaissance program, then it would seem to me that his judgment should govern. In this connection, the Director today telephoned both [redacted] 25X1 25X1 and [redacted] seeking suggestions for a new DD/S&T. [redacted] 25X1 25X1 [redacted] now on duty in the Pentagon, was suggested and the Director 25X1 plans to have a talk with [redacted]
